

Pre-Flight Checklist

Welcome to Tribe Social

We're excited to help you get your new platform up and running soon. We have created this checklist to help maximize our time together on our call. Have as many of these items ready for our call as possible.

Domain Setup

We'll get your custom domain setup...

- Have Your Domain Registration site user/pass available (GoDaddy, Name cheap, etc)

Design

Your new Tribe platform can be customized to match your brand colors / style

- Have a profile image ready for your admin account

Content

During onboarding we will review how to add a few different pieces of content

- Have 2-3 sample video files or articles ready to add
- If you have videos on YouTube or Vimeo, have the links to those videos available

Community / Group

- If you plan on creating a group, have a name and image you can use for your group

- If you have a logo or brand images, have those available
- If you have specific colors you want to use, make sure they are written down and available

- Got a user list / email addresses?
We'll show you how to add / invite people into your new site
