LESSON 1: Possibilities

We have to deal with all of the old stuff and wrong mindsets before we can truly be free to operate in the realm of possibilities.

How we see life alters our expectations and dictates what we hope for and expect.

Before you think you CAN, you have to believe you SHOULD.

In John 8 we know the scripture

'you will know the truth and the truth will make you free.'

The word truth is the same word we get 'reality' from.

You will know reality and reality will make your free.

We go through life experiences with our senses; seeing and hearing the world around us, believing we know WHAT we see and hear but rarely if ever asking HOW we are seeing or hearing.

People can focus so hard on something that they become blind to the unexpected, even when staring right at it.

LESSON 2: Possibilities

You are bi-locational - living in two worlds. You have to intentionally choose which realm you will live from predominantly.

The problem with relying on our current senses to determine our reality, our lenses, and our beliefs around experiences we will see and hear according to what we are prepared to see and hear. Your current life is more about what you believe, and are prepared for.

What you have faith in, what you are believing, what you are expecting will skew reality and actually attract that thing to you and into your life.

What you have to begin doing is building a belief in the promises that are based on Truth, otherwise we will be living with a limiting belief about our life and purpose and be in conflict with what we were designed for

What you expect is based on what you believe, which is based on how you perceived experiences in your life and therefore has determined what you will receive.

You have to begin creating new reference experiences around the promises and prophetic words over your life.

I love how Kris Vallotton says, "how you are feeling is not how you are doing. Many people are living like hell but feeling like heaven."

Lesson 3: Possibilities

What you have to believe first, is the TRUTH, the REALITY, that God is ALWAYS speaking to you.

God speaking is not the problem, our hearing is.

HOW we hear, WHAT we hear, WHEN we hear.... and the lenses that distort all of it.

This is about the gift that ALL have access to, but rarely open or understand how to use.

Scripture says that He would have it that ALL would prophesy. What does the word prophesy mean? 'To utter by divine inspiration' - to speak by divine inspiration.

In other words that ALL people would have the ability to HEAR what God is saying and then speak it; to interpret it according to His nature and character - not according to your character or nature, not according to the facts of nature, but according to the REALITY in which you are bi-locationally living.

Learning to grow through your night lessons that assist in your soul prospering is a key to your life prospering into the Queen position you were created for.

Just as a baby learns how to speak the language around them - it is not by reading a book, but by learning to hear and associate certain patterns to those words.

Throughout history we can see that language is built from story and symbolism- this is how God speaks.

Wisdom and knowledge - that is what Solomon asked for. WHY? Because if he knew if he had the wisdom about what God would do in a situation and the understanding to translate it into practical terms - he could literally rule the world and have all of his needs met as well as the needs of the kingdom he served.

LESSON 4 - Possibilities

We need to begin to train our senses to expect to hear, see, taste, feel, perceive all of the things that are going on around us daily that we are missing.... and then train our sanctified imagination to begin to work together with the holy spirit to interpret the information we are receiving

1- Start by writing down your dream, or what you think is a random story/parable, in its entirety.

2- Then read it to your partner line by line.

3- The listener writes down the keywords that jump out to them

4-When the entire dream is read and keywords are written down, then begin writing down the first thoughts or words you hear, pictures you see, etc. Line by Line.

5- Then read the interpretation lines and hear the parable being spoken.
